**CODERS FORUM**  
-----\*/

//Plan:

//-----

A Club for students for those who are interested in Programming and have a thirst towards learning Technical concepts. This club works on weekly meets on AV Hall for discussion and a Coding Contest every month. This club works on zero-budget for conducting all the technical events. Instead of Trophies and Printed Certificates, an honorary note on the Club website and E-Certificate will be provided.

//Events:

//-----

1) weekly Meet-Up:

weekly gathering of Club Members for sharing their thoughts and to discuss about current Technical Trends.

2) Monthly Contest:

A Coding Contest or Quiz or any other Technical Events conducted, for both Club members and non-Club members too.

//Benefits:

//-----

1) Get to know about various technical sources like Github, HackerRank, LeetCode, etc.

2) Get Contacts and connect with others (including Seniors) and to get help for their Personal Projects.

3) Club members can discuss about what they are currently learning and Project they are working on for an Exposure for others.

4) Develop skills with the help of monthly Contests.

5) Discuss about current Trends and Technical News to stay updated.

6) Overcome 'Stage-Fear' and develop Inter-Personal skills.

//Club Leads:
